Discipleship

We provide intentional, practical teaching to develop new believers into disciple-makers.

Bible Distribution

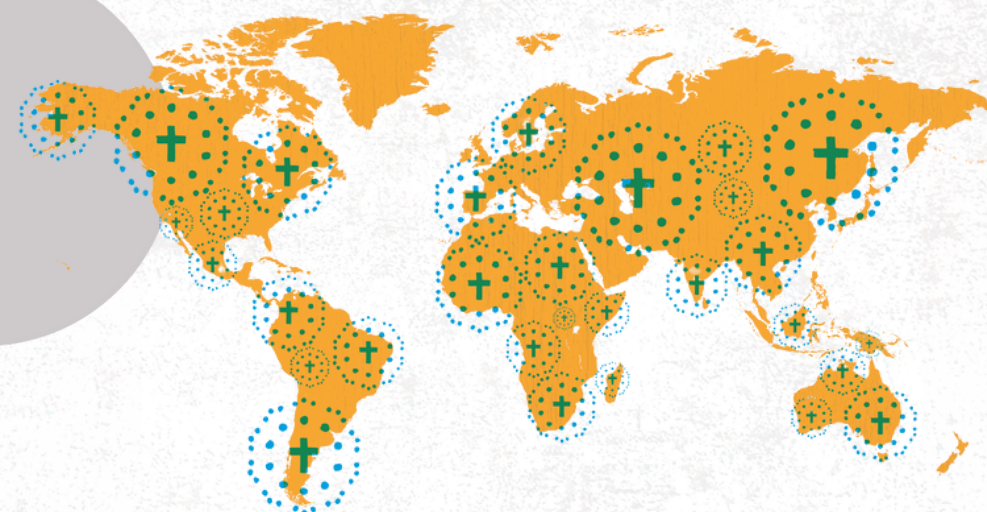

We deliver Bibles to new churches in local languages—because every believer deserves access to God's Word.

Church Planting

Through our multiplication model, each Student Pastor plants three churches during training.

Training Leaders

Our three-year program trains local pastors to lead, teach, and grow their churches.

What is a Hub?

A Hub is a local church led by a trained pastor. It becomes a center point for training others and planting churches.

1 leader → 1 church → 1 year

A single training stream can yield 4,000 churches and 4,000 pastors.
